UNEMPLOYMENT NOW EXCELLED IN 1914, IS CLAIM

Seven Millions Out of Work Then, He Says, as Against 5,735,000 at Present.

By HARRY WARD.
International News Service.

Probably not more than one-third, or less than two million of the people recently reported by the Department of Labor to be unemployed, are the principal bread-winners of the family, Secretary of Labor Davis announced today in a statement on the subject of unemployment.

"Nothing is to be gained by sticking our heads in the sand and ignoring the gravity of the present unemployment situation," said Secretary Davis. "Neither do we profit by distorting the facts and exaggerating the figures estimated."

Secretary Davis took exception to published statements that the Department of Labor had reported 5,735,000 men as being out of work. "The department reported no such thing," said Davis. "It did report that, according to best estimates that could be made, there are 5,735,000 fewer men, women, and children on the pay-rolls than there were in March, 1920. There is a difference with a distinction. It is a very different matter from saying that there are 5,735,000 men unemployed."

According to Secretary Davis, the unemployed in this country in 1914 numbered 7,000,000, a figure which has been overlooked by people who have been disturbed by the unemployment figures of today.

"To get a line on the more favorable situation of today," said the labor Secretary, "we have only to reconstruct matters as they stood in the winter of 1913-14. The break in prosperity had come early in 1913. To add to the growing depression, a destructive war loomed ahead. It was impossible then to foresee the demand that war was later to make on our industries. When the demand did come it brought the feverish artificial stimulation which created the peak employment, the peak production that finally brought us to the standstill of today."

"Now, while we have our unemployed, let us not forget the 12,000,000 of our people who are still at work. A further encouraging fact is that \$500,000,000 is now available about the country, in the form of bonds already issued or appropriations already made by State, county, and municipal governments, for the purpose of public works, roads, etc. Undoubtedly this will now be intelligently organized and accelerated."

CURRAN NAMED TO LEAD FIGHT AGAINST HYLAN

Coalition Designee and Running Mates Sweep N. Y. Republican Primary.

NEW YORK, Sept. 14.—Henry H. Curran, designee for Mayor, and all his associates on the Coalition ticket, won a sweeping victory in the Republican primaries yesterday. The much-vaunted strength of Judge Reuben L. Haskell, candidate of the wets, proved a myth. Aldermanic President F. H. La Guardia, noted Haskell out of second place. Former Senator William M. Bennett trailed Haskell as a poor fourth. Bennett vote was infinitesimal.

United Front to Tammany.

A united front was assured in the contest against Tammany when Judge Haskell announced he would support Curran and the entire coalition Republican ticket. La Guardia made a similar announcement before the polls opened. Bennett sent a congratulatory telegram to the victor, saying his nomination meant "an overwhelming defeat for Mayor Hylan."

Curran carried every borough, recording a victory so impressive that his stock as a contender for the Mayoralty against Mr. Hylan went soaring. He set the pace for all the other Republican coalition designees, who apparently have registered pluralities over their opponents in all of the five counties.

Tammany Man Wins.

Mayor Hylan, Comptroller Craig and Dock Commissioner Murray Hubert, candidates for President of the Board of Aldermen, having been unopposed for nomination, interest in the Demo-

cratic primaries centered in the attempt by Jimmy Hines, Tammany leader of the Eleventh Assembly district, to beat former Senator Julius Miller, regular Tammany Hall designee, for Borough President of Manhattan. Miller, with the strength of the organization behind him, beat Hines by a substantial plurality.

Do This Tonight

Watch the quick effects—see the change in a week

Present this coupon to your dealer. He will give you a delightful ten-day test of a new teeth-cleaning method which millions are employing.

Watch the effects, quick, pleasant and conspicuous. Watch the new luster that comes. In ten days let your mirror tell you the way to pretty teeth.

Leading dentists everywhere advise this method now. You will see and feel the reasons when you make this test.

End the dingy film

The chief purpose is to fight film. This viscous coat, which you can feel, causes dingy teeth and also most tooth troubles.

Film clings to teeth, enters crevices and stays. The old ways of brushing did not end it. So film-coats night and day threaten serious damage.

Film is what discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. All these troubles have been constantly increasing. Despite the daily brushing with old methods, very few escaped them.

Now you can fight it

Dental science, after long research, has found ways to fight that film. Able authorities have proved them effective. Now leading dentists everywhere advise their daily use.

The methods are embodied in Pepsodent, the new-day, scientific tooth paste. Millions of people now use it, and the use is fast spreading the world over.

That is the dentifice we urge you to try. Your druggist has a free tube for you. Enjoy its effects for ten days, then judge them for yourself.

Also starch and acids

Modern diet makes other things essential. And those essentials are embodied in this scientific tooth paste.

Each use of Pepsodent multiplies the salivary flow. That is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise form acids.

It multiplies the alkalinity of the saliva. That is Nature's agent for neutralizing acids which attack the teeth.
